The school fund exists to purchase resources to enhance curriculum, pastoral and other school based provision for students. It is the intention that the fund should provide items which will enhance and enrich the students' education over and above those provided for through the school's delegated budget, as well as equipment which will improve the overall efficiency and running of the school. This policy takes account of all relevant legislation.

#### **Associated Policies**

This policy is to be used in conjunction with the Procurement Policy and Scheme of Delegation.

#### **Policy Objectives**

To ensure that the school fund income and expenditure is properly and transparently managed; that there are adequate monitoring and auditing procedures and that robust internal and financial control is maintained.

### **Monitoring , Review and Evaluation**

The Trustees, through the Resource Committee, will monitor income and expenditure from the school fund. The Resource Committee shall be presented with school fund accounts at each committee meeting and will review fund activity on a monthly basis. The Internal auditor will carry out an annual audit on the school fund and will present his report to the Audit committee. The school fund will be externally audited and be incorporated into the annual company accounts. A copy of the school fund can be made available for viewing by parents on request.
