

# The Calculator

## REQUIREMENTS

- ✓ Create a calculator application which uses a single procedure (Shared Sub Main)
- ✓ The user should be able to input two numbers and then select a mathematical operation
- ✓ The calculation must then be displayed to the user in full, including the answer

```
Please input your first number: 5
Please input your second number: 2
Please choose one of the following options:
1: +
2: -
3: *
4: /
3
5 * 2 = 10
```
